Job Objective

To be able to grow personally and professionally in the computer engineering field along with the growth of the company itself.

Personal View

As a fresh graduate, I understand I am yet to learn a lot of things to get recognition as a computer engineer. So far, the academic life has been going good and I am always successful to showcase my knowledge by understanding and implementing the taught materials. I wish to continue to do the same in my internship too. I shall not give up or feel stress over the job given to me. As it is a learning and growing opportunity for me, I vow to give my 100% throughout the period to become a quality engineer and not let the company name ruin on my behalf.

Profile

- Capable of analyzing granular differences
- Flexible team member capable of handling multiple projects together
- Goal driven mentality with proper organizational and planning skills
- Good communicator capable of conveying information in both written and verbal manner
- Thrives in quality environment for the overall development
- Able to demonstrate quick learning capacity

Academic Qualifications

Dec 2012- Dec 2016: **Bachelor of Engineering (79.54%)**

Department of Computer

Advanced College of Engineering and Management (TU)

Scholarships and Awards

Recipient of 5 out of 8 full semester scholarships

Technical Knowledge:

Languages: C, C++, Java, Android, PHP, Python

Tools: MS Office, MS Visual Studio, NetBeans, Android Studio

Databases: MS SQL 2008, My SQL

Web Technologies: HTML, CSS, JavaScript, Bootstrap, AngularJS

Projects:

Completion of Minor and Major projects as part of Engineering course

Minor: Vehicle Registrar (Android app for bluebook digitization)

Responsible for designing and documentation along with some back-end help

Major: Question Generator (Java program for automatic generation of questions)

Responsible for algorithmic design and documentation

Extra events attended:

- Participation in AVR training camp
- Participation in software competition held by ACEM PACE (Advanced College of Engineering and Management Project Association of Computer and Electronics)
- Training in Windows 8.1 App Development conducted by MICNIC (Microsoft Innovation Center Nepal)
- Participation in extra Java and Android courses provided by college

Interests

- Listening music and watching movies of wide genre
- Traveling for recreational as well as academic purpose
- Spend quality time with orphans and needy people
- Keen towards adventures and thrilling sports
