## OBJECTIVE

Seeking a position in life to utilize my skills and abilities at Leapfrog Technology and achieve professional growth while being creative, innovative and hard working as well as to contribute something to uplift your esteemed organization as an important member.

## SKILLS

**Technical** - Asp.net/ Asp.net (MVC), HTML, CSS, Entity Framework, JavaScript, SQL server

**Problem Solving** - Able to deal with new problems, tackle them through mathematical models and critical thinking.

**Communication** - Ability to present ideas, concept, etc.

**Leadership** - Ability to work in group by leading the team and making fun in the group for motivation and bringing the working energy in the team.

## EMPLOYMENT

With just completion of my Bachelor in Computer Engineering, I want to begin my career in IT from internships. I am keen to grow my skills, knowledge and abilities working at your company. Though I don't have any professional experience in any sort of Software Company, I have done couple of projects in asp.net which has built up my confidence to work with seniors.
