EDUCATION

Graduation

Bachelor of Computer Application (BCA), Pokhara University, Nepal
Final Grade: 3.93/4

Major Subjects Studied: C Programming, Object Oriented Programming, Software Engineering, Data Structures, Intro to Java Programming, Web Technologies, Intro to Linux/UNIX, Intro to Mobile Application Development

Year of Completion: 2017

Senior Secondary

HSEB, Caribbean H.S. School, Lalitpur, Nepal
Final Grade: 6.3/10

Major Subject Studied: Science

Secondary

Mid-Western Regional Police Boarding High School, Dang, Nepal
Final Grade: 8.1/10

PROJECTS

Final Year Major Project

Project Title: Library Management System

Language Used: C#.NET

Description: The Library Management System is an application for assisting a librarian in managing a book library in an academic library. It allows two access methods – Admin access and Librarian access. Admin access can manage user, student, and staff entries. Whereas, Librarian

access can manage books entries, and issuing of books. Report module is also included in the System. Both the admin and librarian is able to generate different kinds of reports like lists of students registered, list of books, issue and return reports.

Minor Project

Project Title: Bank Information System

Language Used: VB.NET

Description: The computerized bank information system is software developed in VB.NET programming language which is designed to handle the basic operations in a bank for maintaining a person's account. This project has been developed to carry out the processes easily and quickly, which is not possible with manual systems. It allows two access methods – Admin access and Staff access.

Currently Working Project

Project: A website based on ASP.Net Web API that is used to handle different types of CRUD operations.

Languages Used: ASP.NET, Knockout JS, HTML, CSS

Description: Working as a developer whose responsibilities include creating web APIs, creating controllers, models, and views for different pages, and writing JS scripts with KnockoutJS framework.
