COMMUNICATION SKILLS

- Communication skills to present points precisely and clearly
- Interaction skills to coordinate when working in a team

PREVIOUS PROJECTS

- College Projects:

3rd year Minor Project
      The project was SAJILO TAXI. It was an android app for booking the Taxi. The app worked by presenting the unreserved taxi to the passengers from the database and after the taxi was booked the information of passenger as sent to the driver through in app Notification. I mainly dealt with the database and integration with the app and UI related designs.

4th year Major Project
      The project was HOTEL FINDER. It was a website for searching the best rated Hotels and restaurant in needed area. The website was made using PHP, HTML and CSS.

- Personal Project:

1st year project
      I made a typing practicing game BEAT THE TIME using C. It was a simple game that allowed user to test their typing speed. Levels increased when user completed the sentences in time.

JOB-RELATED SKILLS

- C, C++, Basic Java, HTML, CSS
- MEAN stack
