OBJECTIVE

I have a keen interest on creating desktop applications and mobile based applications. I also like designing basic web pages using HTML and CSS. Java and Android are the languages which I am currently working on and want to excel on future. Although my primary interest is on Java, I am ready to learn any new skills and work on it.

PROJECTS

Futsal Booking
Ashik Subedi, Sabin Maharjan
We made the futsal booking application as our major project on Android platform. This app allows user to easily book futsal at their preferred time and also allow provision to challenge teams for match using chat system.

Library Management System
I made this project using C programming language as my first year project.
