To,

Whom it may Concern

Subject: Request for Internship (Software Engineering (java))

Respected Sir/Madam,

I am the dedicated fresh java Developer who is studying Bachelor's in Computer Science and Information Technology (VIII semester) and seeking for the internship on the technological industry as to fulfill the requirements of the VIII semester syllabus. As per the notice on your website I come to know there exist the vacancy in the java Intern and Java developer trainee, I am open to discuss to be heir in any of this specifications because my qualification fulfills your requirements. I am glad that you have been promoting the IT industry in Nepal and hope you'll give me this platform to learn the real time projects and means to make them ready efficiently. I want to ensure you that if I am given the chance I will keep no stone untorn to serve your organization under the umbrella of your rules. The resume is attached with the application. Hope for positive response Thank You!

Your Sincerely

Sagar Shah
